In accepting this General Regulation, exhibitors who provide their own catering separately from the services provided by Fiera Milano declare that they are aware of the provisions of the Italian Prime Ministerial Decree dtd. 17 May 2020 and its amendments and agree to observe its requirements.

Art. 12 - Digital Catalogue and Promotional Material

Fiera Milano prepares and distributes promotional material relative to the event itself before, during and after it takes place. The mention of the Exhibitor and the indication of the Company Trademark, Represented Company, Co-Exhibitors, indicated by the Exhibitor in the material published by Fiera Milano on a date prior to the notification of the stand assignment, does not entail automatic participation in the Event. Fiera Milano will provide to publish on the Official Exhibitor Catalogue the Exhibitors' company names, Company Trademark, Represented Company, Co-Exhibitors, the position of the stand and the activity sector. Art. 13 - Workshops and Events

Participation in workshops, dedicated to specific sectors and/or events organized by Fiera Milano at the Event and/or as part of specific exclusive areas, including those held in locations outside the exhibition grounds, is reserved exclusively for companies/bodies/institutions that have acquired stands/spaces inside the exhibition area at the Event and which are deemed suitable at the sole discretion of Fiera Milano. In any case, Fiera Milano has the right to decide the workshops and/or events where the Exhibitors may participate.

After the issue of the stand allocation notification, the exhibitor may take advantage of the exhibitor's commercial services to be requested through the online E-service shop (such as for example: stand components, stand furnishing, lighting bars and hangings, stand services, etc.). The services available on the E-service platform are not included in the participation fees detailed in Art. 5. The fees for the services and the other sums owed to Fiera Milano and/or to other Group companies must be paid for without fail at the time of booking except for services that are only quantifiable as incurred (e.g.: electrical systems, insurance for capital exceeding the basic insured amount and/or optional Accidents insurance, etc.) which shall be summated in the final invoices in the Exhibitor's Portal. Payment for these services must be made by the end of the Event (May 6th, 2022). Any disputes regarding these fees must be forwarded to Fiera Milano before the end of the show.

Art. 15 - Space Assignment

Fiera Milano cannot however be held responsible if the e-mail is not received. Notification of space assignment is valid for the Exhibitor to whom it is addressed. The surface area, type of space and position requested by the Exhibitor in the Application is not binding for Fiera Milano, which may assign a space with different measurements, layout and position from those indicated by the Exhibitor, if the requests made by the Exhibitor are not, at the sole discretion of Fiera Milano, compatible with the overall organizational needs or with exhibition spaces dedicated to specific goods sectors, or with the standard characteristics of the exhibition areas in general. Assignment of a certain area or exhibition typology or space at a previous edition of the Event shall not represent a preferential right to obtain the same area or exhibition type, or space for subsequent editions. The Exhibitor is obliged to respect the size of the space assigned. Occupation of more exhibition space than that assigned shall lead to an extra charge calculated according to the Rates. No business may take place outside the assigned exhibition space, even with a view to avoiding interference with the activity in other stands, nor may the corridor and/or area behind the space be used. Fiera Milano reserves the right to modify the location of the space, even if already assigned, or to change the measurements, should this become necessary due to technical and/or organizational reasons. The Exhibitor must inform Fiera Milano for the exposition/presence in his booth of: motor vehicles, vans, trucks, 18-wheelers, etc.; for this reason, Fiera Milano can change the position of the stand, also of those already assigned and/or in pending assignment. For safety reasons, the Exhibitor will have to follow the rules and bans included in the Technical Regulation of Fiera Milano.

Art. 16 - Prohibition of cession

The stand allocation notification is valid for the Exhibitor to whom it is assigned. The total or partial cession of the allocated exhibition space, even for free (both through sale of the contract or subcontracting or on whatever other basis), is forbidden. Violation of this prohibition entails the exclusion of both the selling and the purchasing Exhibitors from the subsequent Event editions as well as the exclusion from the event to which the sale refers and to all other events organized by Fiera Milano. Fiera Milano further reserves the right to arrange the immediate closure of the sold stand area with all costs charged to both companies that have taken part in the sale both jointly and severally. The use of materials produced by third parties is only allowed for the purposes of stand fitting and decoration, and must be performed in a completely anonymous way without any crediting whatsoever. The violation of the above prescription leads to the same consequences as the sale and, if the companies supplying the products are Exhibitors in their own right in Fiera Milano events, the penalty will apply to said companies.

Art. 17 - Balance for Exhibition Space - Payment of Invoices - Exit Pass

The balance for the exhibition space must be paid by February 28th, 2022. Invoices issued after this date must be paid immediately and, in any case, before the beginning of the Event. Failure to do so will mean that the stand cannot be set up. During the Event, Fiera Milano and in general the Gruppo Fiera Milano administration shall issue a statement summarizing all invoices issued for services and extra supplies, plus any other charges. The invoices will be loaded on the Exhibitor's Portal and the Exhibitor can pay what's due by wire transfer, credit card by accessing his private area - on the Exhibitor's Portal through the "Easy Service" digital system or on receipt using the bank agencies at the Fairgrounds. The access to the tool in the Exhibitor's Portal for the issuing of Exhibitors' passes and for parking passes for cars is subject to the settlement of invoices for the participation in the Show, therefore the tool will not be activated in case of non-payment.

Art. 18 - Workplace Safety

Each Exhibitor is required to scrupulously comply with the entire regulatory system in force, also and above all with regard to the protection of the health and physical integrity of workers, and with labour, social security and welfare legislation for the entire duration of the Exhibition, including the time required for the assembly and dismantling of stands and any other related activity, waste disposal including, but not limited to, the use of tools. Furthermore, the Exhibitor undertakes to observe and ensure that all contractors working on its behalf, during the assembly and dismantling of the stand and in relation to any other related or connected activity, comply with the Technical Regulations of Fiera Milano and any supplementary sections thereof that he declares having fully understood, the provisions contained in art. 88 of the Italian Legislative Decree 81/2008, paragraph 2-bis and its implementing Ministerial Decree of 22.7.2014, issued by the Ministry of Labour and Social Policies and the Ministry of Health. The Technical Regulations, which can be consulted on the website www.fieramilano.it, in the section "Exhibitors - Technical Documents - Link to event" contain, among other things, precautionary rules regarding exhibition safety (fire prevention, electrical systems, environmental protection, etc.), with the exclusion of the specific safety rules concerning the activities carried out by the Exhibitor or contracted out by the latter to the contractors (stand assembly and dismantling and related activities), the verification and observance of which remains the responsibility of the Exhibitor itself.

For the purposes of fulfilling the obligations contained in the Italian Ministerial Decree 22.7.2014 above, the Organizer makes the documents referred to in Annexes IV and V of the Ministerial Decree itself available on its own website and that of Fiera Milano. Behaviours that do not comply with the above safety regulations, in particular when they may affect the general safety of the halls and third parties present, may be the subject of intervention by the Organizer and/or Fiera Milano, as part of random and sample checks, and may result in the immediate deactivation of utilities supplied to the stand or the immediate closure of the same. Any other consequence that may arise from failure to comply with the above provisions is solely the responsibility of the Exhibitor and the its contracted companies. Fiera Milano may remove from the Exhibition Centre personnel of contractors/self-employed persons working on behalf of the Exhibitor if they do not have the identification card provided for by articles 18, paragraph 1, letter u), 21, paragraph 1, letter c), 26, paragraph 8 of the Italian Legislative Decree 81/08 and non-EU personnel if, even if they have the identification card referred to above, they do not have a valid, legible residence permit or a valid, legible identity card.

The Employer who is responsible for such personnel will be charged consequently. The Exhibitor that, as customer, has authorized the company to operate in the district on its own account for the execution of works, will be informed of the claim. The Exhibitor is responsible for the compliance with the regulations in force of everything that is carried out and organised on its behalf in relation to outfittings, structures, systems, products on display and all related activities. Each Exhibitor must appoint a "Contact Person for the Exhibition Safety of the exhibitor" (RSE) who will, for safety purposes, be liable towards all subjects possibly involved for all responsibilities in respect of the activities conducted on the Exhibitor's behalf during the entire time of stay at the exhibition district. At the Exhibitor's discretion, and under its full responsibility, the RSE may also be a different person in each of the three stages mentioned above (assembly, exhibition and dismantling). The name of this Contact Person and the relevant telephone numbers must be communicated to the Organizer and Fiera Milano before the stand assembly works begin and, in any case, before workers and materials enter the Fiera Milano District. The names and contact details of the Contact Persons for the Exhibition Safety of neighbouring stands will be made available to Exhibitors at the Organizer and at Fiera Milano. Each Exhibitor, through his own contact person for the Exhibition Safety, must work jointly with the Contact person for the Exhibition Safety of the neighbouring stand so that, through the exchange of information, it will be possible to identify any preventive measures to be applied to eliminate or, where this is not possible, minimise the risks of interference, where present. If the name of the "Contact Person for the Exhibition Safety of the exhibitor" (RSE) is not communicated, this function will be held by the legal representative of the Exhibitor Company. Any changes to the name of the "Contact Person for the Exhibition Safety of the exhibitor" must be promptly communicated to the Organizer and Fiera Milano. The most relevant obligation for the Organizer concerns the DUVRI (unified document for the assessment of interference risks), or the PSC (safety and coordination plan) in the event that, respectively, the rules contained in article 26 of the Italian Legislative Decree 81/08 are applied, or those contained in Title IV of the same decree, relating to work safety at construction sites, according to the provisions of the Italian Ministerial Decree of 22 July 2014. This documentation must be uploaded to the appropriate section of the Fiera Milano e-services platform available to the competent authorities (ATS and the police) and be present at the stand for the entire period of the event (including assembly and dismantling). Service providers working on behalf of Fiera Milano will only access the stand in the presence of the "Contact Person for the Exhibition Safety of the exhibitor" and after authorisation from the latter. The above restriction does not apply to personnel responsible for surveillance and security of the area.

18 bis) - Measures to guarantee personal security in the Fiera Exhibition Centre

Exhibitors are responsible for custody and surveillance of their own stands and contents during the opening hours of the pavilion, both during the show and when setting up and dismantling stands.

25. Declaration of value - Insurance - Limitation of liability

25.1. Declaration of value -

Exhibitors/co-Exhibitors are required to declare, using the special form downloadable from the Exhibitor's Portal (compulsory documents), the total "estimated value" of goods, machinery, fixtures and fittings and equipment they plan to bring to and/or used at the Fiera Milano ground, even on behalf of Represented Brands understanding that in lack of such declaration, the value shall be considered to be the minimum amount as stated in Art. 25.2 below and save in any case the right to verify the aforesaid declaration by Fiera Milano. In case of accident, should the final value declared by the Exhibitor/co-Exhibitor fail to correspond to effective value of the insured property, the value of said merchandise shall be that declared by the Exhibitor/co-Exhibitor. Pursuant to art. 1907 of the Italian Civil Code, compensation could be determined by the Insurer on the basis of the proportional criterion.

Coverage includes the stipulation of 10% insurance exclusion for each claim in the event of theft, with a minimum of Euro 250,00 and doubling this amount for the reports submitted after the closing of the exhibition.

Lacking the acceptance by the Broker of Fiera Milano, of the documentation stating adequate insurance coverage, in compliance with Art. 7.3 of the special form downloadable from the e-service platform, at least within 15 days before the Exhibition beginning, the amount for the insurance coverage made available through Fiera Milano, have to be paid to the following Bank account, addressed to Fiera Milano S.p.A.:

Storage of the Exhibitor's materials on the Trade Fair Premises shall also incur a charge levied by Fiera Milano for occupation of the area outside the show. The Exhibitor shall return the exhibition area in the same condition as it was when it was delivered. Non-compliance with this regulation shall entitle Fiera Milano to the right to avail themselves against the Exhibitor for costs incurred for restoring the exhibition space to its original condition. If the Exhibitor refuses to refund the above costs, Fiera Milano shall have the right to retain the material exhibited and Fiera Milano shall therefore have the faculty to confiscate the exhibited goods as the latter were also brought into Fiera Milano as security. The same faculty shall be reserved for any other account receivable owed by the Exhibitor, as a direct result of the latter's participation in the Event.
