

Ecomondo, the ecological transition ecosystem, is the place to meet and talk for industries, stakeholders, policy makers, opinion leaders and local authorities. It brings together and systematizes the key elements that define **the development strategies of the European Union's environmental policy**.

Ecomondo is **the reference international event in Europe and the Mediterranean basin** for technologies, services and industrial solutions in the green and circular economy sectors.

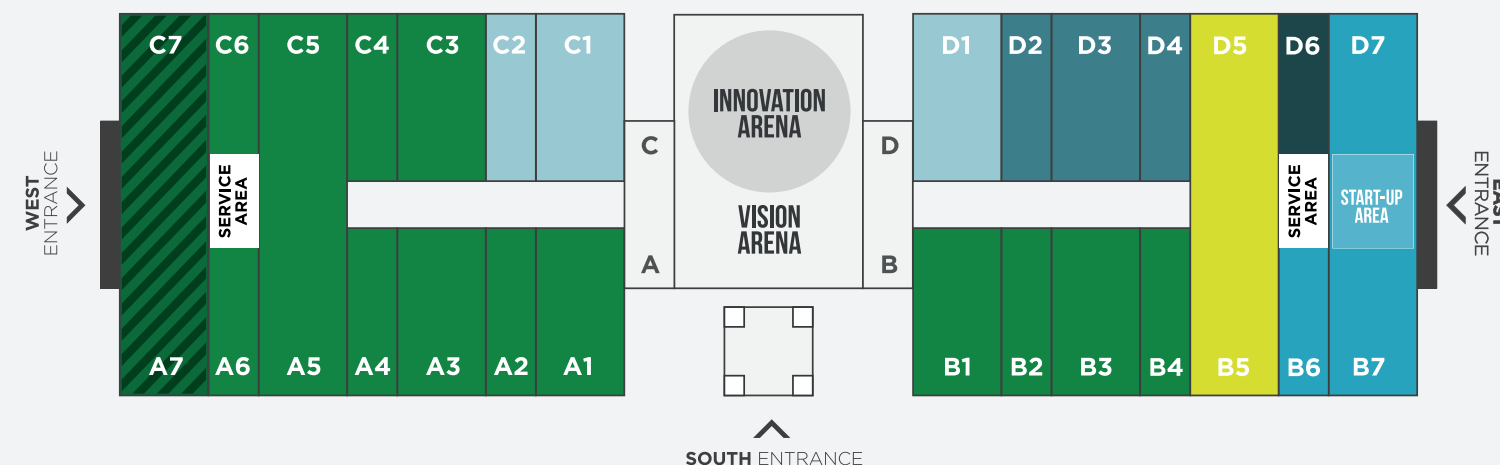

Over the four days of the event and throughout the year, Ecomondo organises and promotes digital and in-person meetings, providing opportunities for the **implementation of the flagship projects in the National Recovery and Resilience Plan (NRRP), the adoption of the circular economy** in the main industrial supply chains as well as the restoration and **ecological regeneration** of soils and hydrosphere, coastlines and cities.

Timeline

LAYOUT AND EXHIBITION SECTORS

More than 130,000 sqm of surface dedicated to the ecological transition

SAL.VE

> Ecological Services Vehicles Expo

WASTE AS RESOURCE

> Handling materials, Lifting solutions
> Containers, Collection, Transport & Logistic
> Waste treatment and disposal technologies and components

CIRCULAR & REGENERATIVE BIO-ECONOMY

> Bioproducts and Bioplastics
> Ecodesign of products and processes
> Repair services

SITES & SOIL RESTORATION

> Reclamation of contaminated sites and regeneration
> Containment of soil consumption, redevelopment and reuse of disused areas
> Prevention of environmental damage and emergency intervention

ENVIRONMENTAL MONITORING & CONTROL

> Integrated monitoring solutions (water, air, soil)

WATER CYCLE & BLUE ECONOMY

> Captation, purification, distribution
> Reuse and recycling of waste water for civil and industrial irrigation
> Valorisation
> Digitisation: water 4.0, IoT, AI
> Management of Water Infrastructures
> Efficiency: monitoring, control
Blue Economy, aquaculture and fishing, desalination, marine litter

BIO-ENERGY & AGROECOLOGICAL

> Bioenergy: biomass, bioliquids
> Biogas: processes and products
> Cogeneration
> Precision farming

CONTACTS

Alessandra Astolfi
Global Exhibition Director
